TO: ASCIP Membership

FROM: Jackee Munoz-Goode, Insurance Operations Manager

SUBJECT: **ASCIP-B 2022-2023 Program for Boosters & Foundations**

ASCIP is pleased to continue offering the ASCIP-B program to its members. The program provides general liability coverage for booster clubs, auxiliary organizations, non-parent and parent-run foundations, and parent-teacher organizations that support the member district's educational and extracurricular programs.

This policy is separate from the ASCIP Memorandum of Coverage (MOC) since these organizations typically are not controlled by the District and are excluded from the MOC. We recognize these organizations are vital to districts for their fundraising efforts; thus, we continue to offer the program to our members. By providing this program, organizations have a feasible option to procure general liability coverage, and members have peace of mind knowing these organizations maintain liability coverage throughout the year.

Participants of the 2021-2022 ASCIP-B program will have coverage rolled over for the 2022-2023 program year; however, each organization must still submit a new roster form. Please note that a completed roster is required for each new organization wishing to procure coverage. Your boosters and foundations may complete their roster form online using the link provided below or via the attached PDF.

Should you have any questions about ASCIP-B programs or would like an updated list of Booster or Foundations at your District, please contact me at (562) 404-8029 or via email at [Munoz@ascip.org](mailto:Munoz@ascip.org).

ASCIP values our partnership with our member districts and look forward to another year.
